

Explore Key DynaTech Sessions At Summit NA 2025

Join Us For Practical, Hands-On Learning Sessions Designed To Help You Solve Real Challenges And Get The Most Out Of Microsoft Dynamics 365, Power Platform, And AI.

Session 1 – Membership

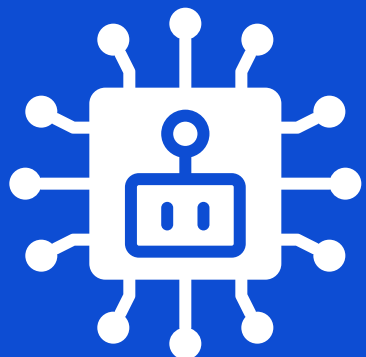

Boost Membership And Engagement

90-Minute Deep Dive

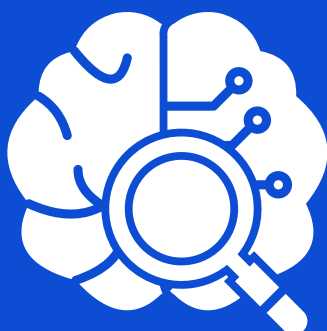

Learning Objective 1

Discover How Dynamics 365 Modernizes Membership Management, Renewals, And Chapter/Club Operations With Automation And Self-Service.

Learning Objective 2

Learn Strategies To Integrate AI, Finance, Fundraising, And Events Into A Connected Member Journey.

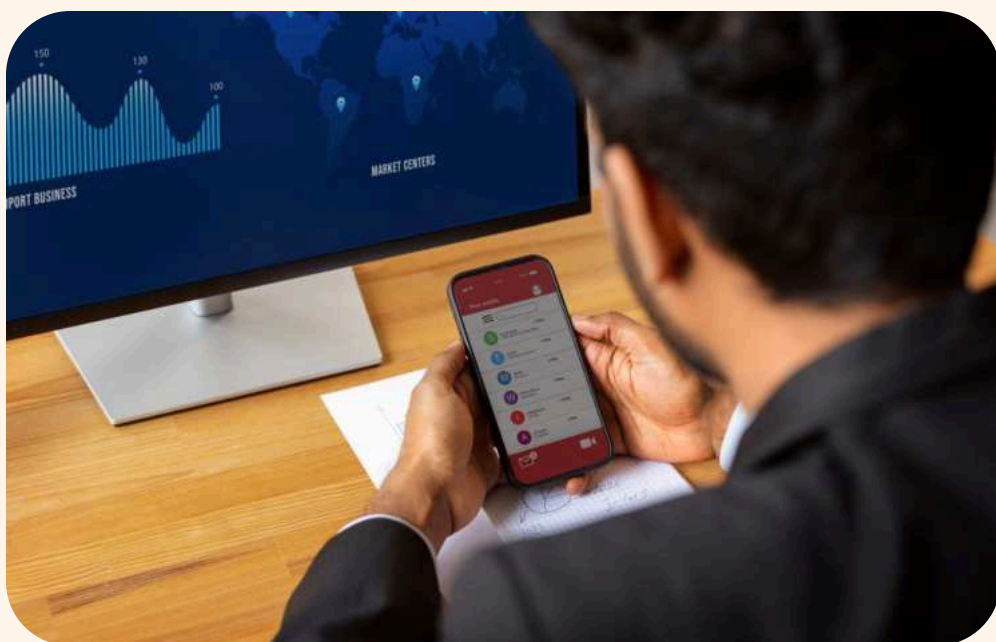

Learning Objective 3

Explore How AI Analytics And Dashboards Empower Leaders With Data-Driven Insights For Engagement And Growth.

Session 2 – Testing

Performance Testing Made Simple

60-Minute Session

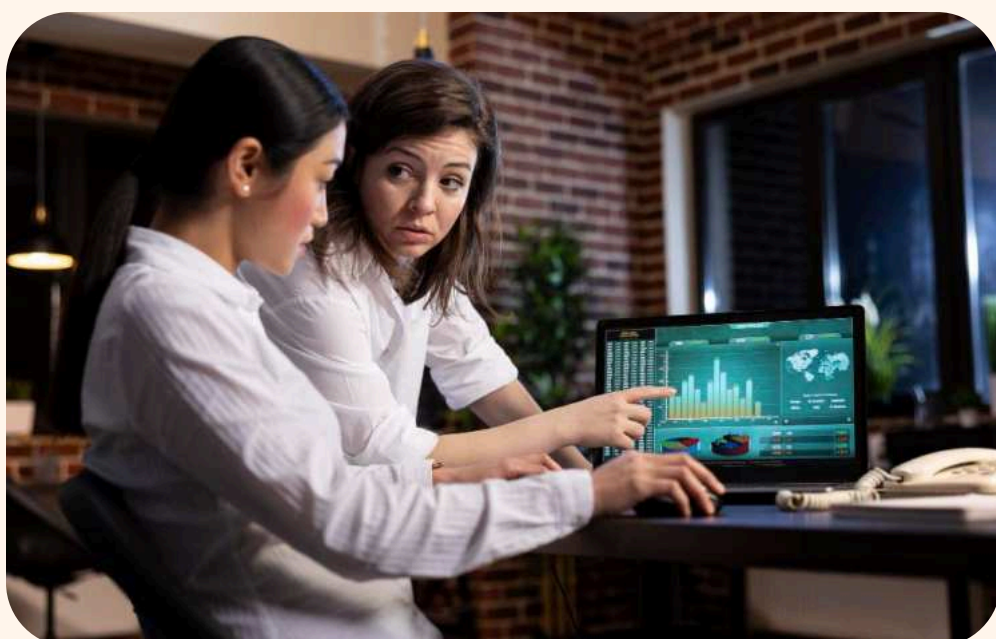

Learning Objective 1

Implement Scalable Load & Stress Testing – Execute Concurrent User Load Tests, Identify Breaking Points, And Optimize D365 Applications For Peak Demand.

Learning Objective 2

Optimize API & Microservice Performance – Reduce Manual Effort, Maintain System Integrity, And Improve Responsiveness And Efficiency.

Learning Objective 3

Leverage DevOps & CI/CD For Performance And Automation – Explore Shift-Left Testing Strategies, Performance Monitoring, And Continuous Performance Tuning To Enhance D365 Reliability.

Session 3 – Client Case Study

Data Journey: From Chaos To Clarity

60-Minute Session

Learning Objective 1

Understand The Challenges & Key Considerations In Healthcare Digital Transformation – Operational, Financial, And Service-Related Hurdles.

Learning Objective 2

Explore The Implementation Strategy & Best Practices – See How DynaTech Structured The Rollout, Managed Integrations, And Ensured Smooth Adoption.

Learning Objective 3

Analyze The Business Impact & Measurable Outcomes – Optimized Financial Processes, Automated Field Service, And Real-Time Decision-Making Improvements.

Session 4 – MDM Legend

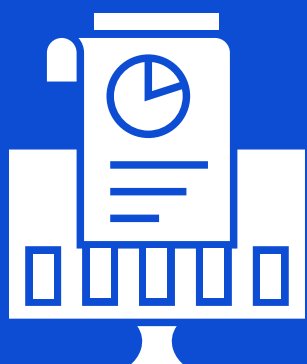

Master Data Management In 10 Minutes

Lightning Talk

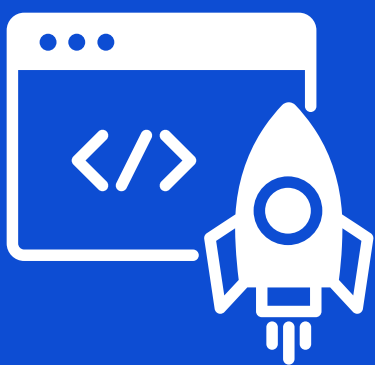

Learning Objective 1

Build A Fabric-Based MDM Architecture – Support Ingestion, Transformation, And Publishing Of Enterprise Master Data.

Learning Objective 2

Enable AI-Ready Planning And Analytics – Unify Master Data Across ERP And CRM To Improve Reporting And Insights.

Learning Objective 3

Leverage DynaTech's Framework For Scalable MDM – Faster Deployment, Stronger Governance, And Business-Ready Outcomes.

Session 5 – Manufacturing Accelerator

Smarter Manufacturing & Supply Chain With DynaTech

60-Minute Session

Learning Objective 1

Understand How DynaTech's Manufacturing Accelerator Improves Operational Agility Using Intelligent Planning, Backlog Optimization, And Advanced Inventory Allocation.

Learning Objective 2

Explore Automated Workflow Orchestration, Serial Number Tracking, And Real-Time Operational Insights To Enable Faster, Data-Driven Decisions.

Learning Objective 3

Discover How Streamlined Operations And Dynamic Delivery Coordination Enhance Efficiency, Reduce Delays, And Create Measurable Business Impact.
