

# Get Certified with AHA PALS for Healthcare Providers in Palm Desert and Nearby Cities

The **PALS for Healthcare Providers** course by the **American Heart Association (AHA)** is a vital certification designed to equip medical professionals with the knowledge and hands-on skills needed to save the lives of infants and children in critical situations. This **PALS certification** is now available through Palm Desert Resuscitation Education (PDRE), providing comprehensive, classroom-based training in **Palm Desert, Palm Springs, Cathedral City, Rancho Mirage, Indian Wells, Indio, La Quinta, Bermuda Dunes, Idyllwild-Pine Cove, Desert Hot Springs, Sun City, and Thousand Palms, United States.**

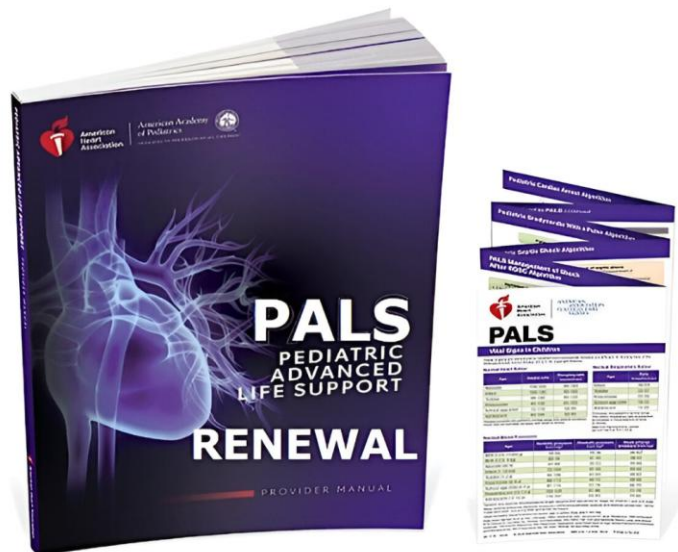

Looking for **PALS near me**? Get certified with the **AHA Pediatric Advanced Life Support (PALS)** course at PDRE in **Palm Desert** and nearby cities for expert pediatric emergency training.

What is **AHA PALS** for Healthcare Providers?

The **AHA PALS (Pediatric Advanced Life Support)** course focuses on recognizing and managing life-threatening pediatric emergencies, including respiratory distress, shock, and cardiopulmonary arrest. The course follows the latest **AHA Guidelines for CPR and Emergency Cardiovascular Care (ECC)**, ensuring that healthcare providers learn the most updated and effective techniques.

During this instructor-led training, participants engage in video-based lessons, interactive discussions, and simulated pediatric case scenarios. These real-life simulations strengthen the participants' ability to apply systematic approaches to pediatric assessment, **basic life support**, and **PALS treatment algorithms** in actual emergency settings.

[American Heart Association PALS](#) is an advanced training program that teaches healthcare providers how to effectively manage and respond to pediatric emergencies.

### Who Should Take the PALS Course?

The **PALS course** is designed for medical professionals who respond to pediatric emergencies, such as:

- Physicians
- Nurses and Nurse Practitioners
- Paramedics and EMTs
- Physician Assistants
- Respiratory Therapists

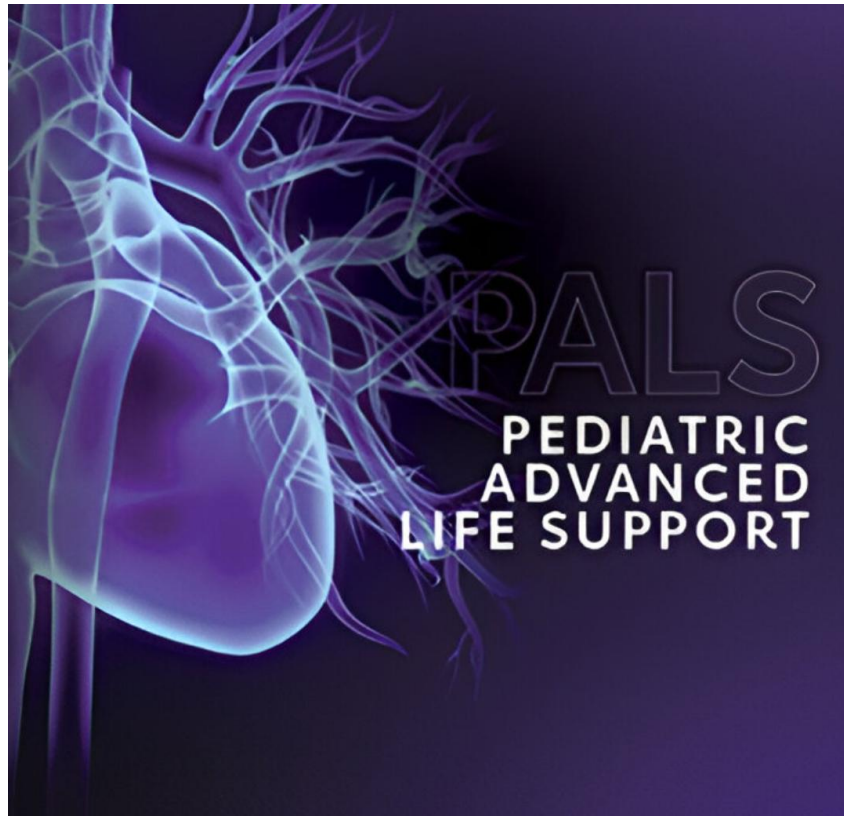

- Other healthcare providers who require a **PALS course completion card** for employment or licensing purposes

This course is especially relevant for professionals working in **emergency medicine, intensive care, and critical care units** in regions such as **Palm Desert, Palm Springs, Rancho Mirage, Cathedral City, Indian Wells, Indio, La Quinta, Bermuda Dunes, Sun City, Idyllwild-Pine Cove, and Thousand Palms.**

### **Course Highlights and Features**

- **Instructor-led classroom training:** 100% interactive sessions led by certified AHA instructors.
- **Hands-on skills practice:** Learn essential techniques like **high-quality Child CPR AED** and **Infant CPR.**
- **Realistic simulations:** Engage in clinical scenarios that mimic real pediatric emergencies.
- **Systematic approach to care:** Understand how to assess, diagnose, and manage respiratory, cardiac, and shock emergencies.
- **Team dynamics:** Develop leadership and communication skills to work effectively in a resuscitation team.

This **AHA PALS course near Palm Desert** provides both individual and team-based learning environments, ensuring each participant masters the required competencies for pediatric emergency response.

## Course Content Overview

The **PALS for Healthcare Providers** course covers essential topics including:

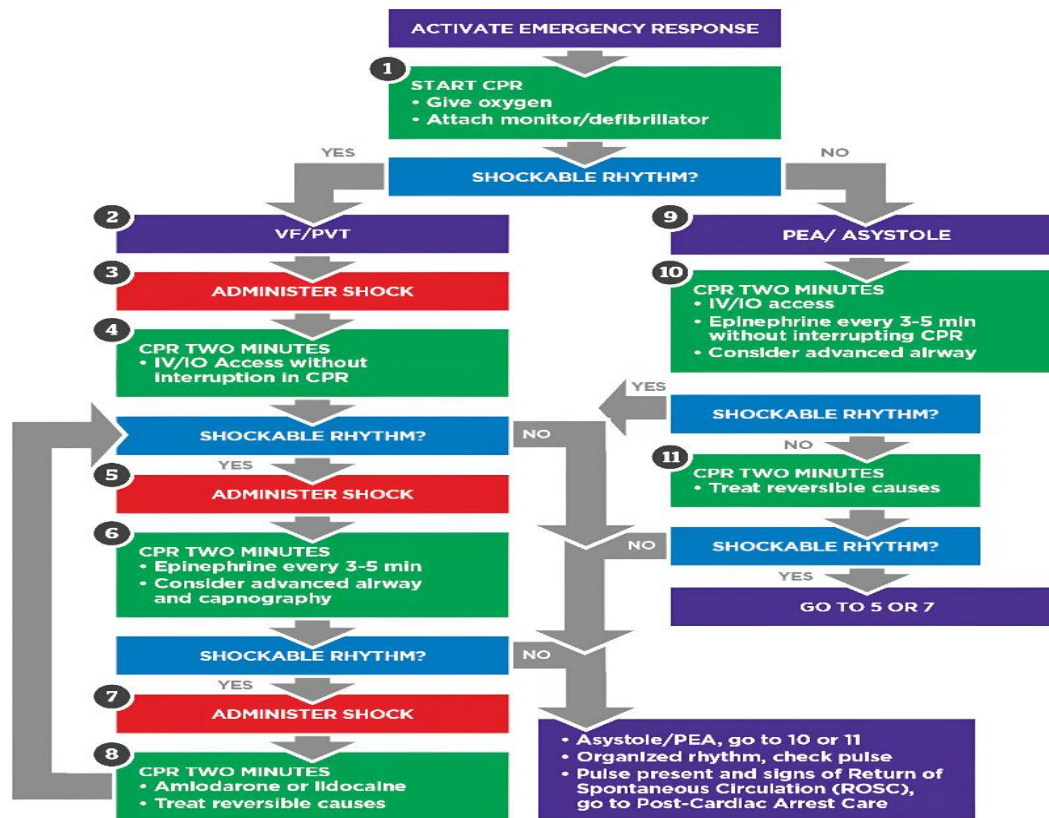

- Pediatric Assessment System and Early Recognition
- **High-quality CPR for Infants and Children**
- **Use of AED for children** and management of cardiac arrest
- **Recognition of respiratory failure and distress**
- **Shock management:** compensated and decompensated shock
- **Arrhythmia recognition and treatment**
- **Post-cardiac arrest management**
- **Team roles and responsibilities** in resuscitation scenarios

Through active participation, students gain the confidence to manage critical pediatric conditions and apply evidence-based interventions to improve patient outcomes.

## Course Duration and Format

- **Initial Provider Course:** Approximately 10.5 hours (including practice, testing, and breaks)
- **Renewal Course:** Approximately 6–8 hours depending on station options

The course includes video-based instruction and hands-on skills practice throughout the session. Participants are tested on their psychomotor skills and teamwork abilities during simulated pediatric emergencies.

### Prerequisites for Enrollment

To enroll in the **AHA PALS course near Palm Desert**, participants must:

- Hold a current **AHA Basic Life Support (BLS) Provider** certification
- Have a solid understanding of **basic ECG rhythms and pharmacology**
- Possess the current **PALS Provider Manual or Handbook for ECC** (available for purchase during registration)

PDRE also offers a **BART (Basic Arrhythmia Recognition and Treatment)** course for students who wish to strengthen their ECG rhythm interpretation before attending PALS training.

### Course Fees

- **Initial Provider (with manual): \$330**

- **Initial Provider (without manual):** \$280
- **Renewal (with manual):** \$250
- **Renewal (without manual):** \$200

The course fee includes hands-on training, access to AHA-certified instructors, and completion testing.
