

# Real-Time Insights with Databricks + Fabric

Say goodbye to complex pipelines  
Databricks + Fabric now deliver real-time insights without  
ETL or replication.

# Fabric + Dataverse Better Together

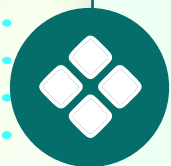

---

Copilots in Fabric create rich reports + uncover hidden trends

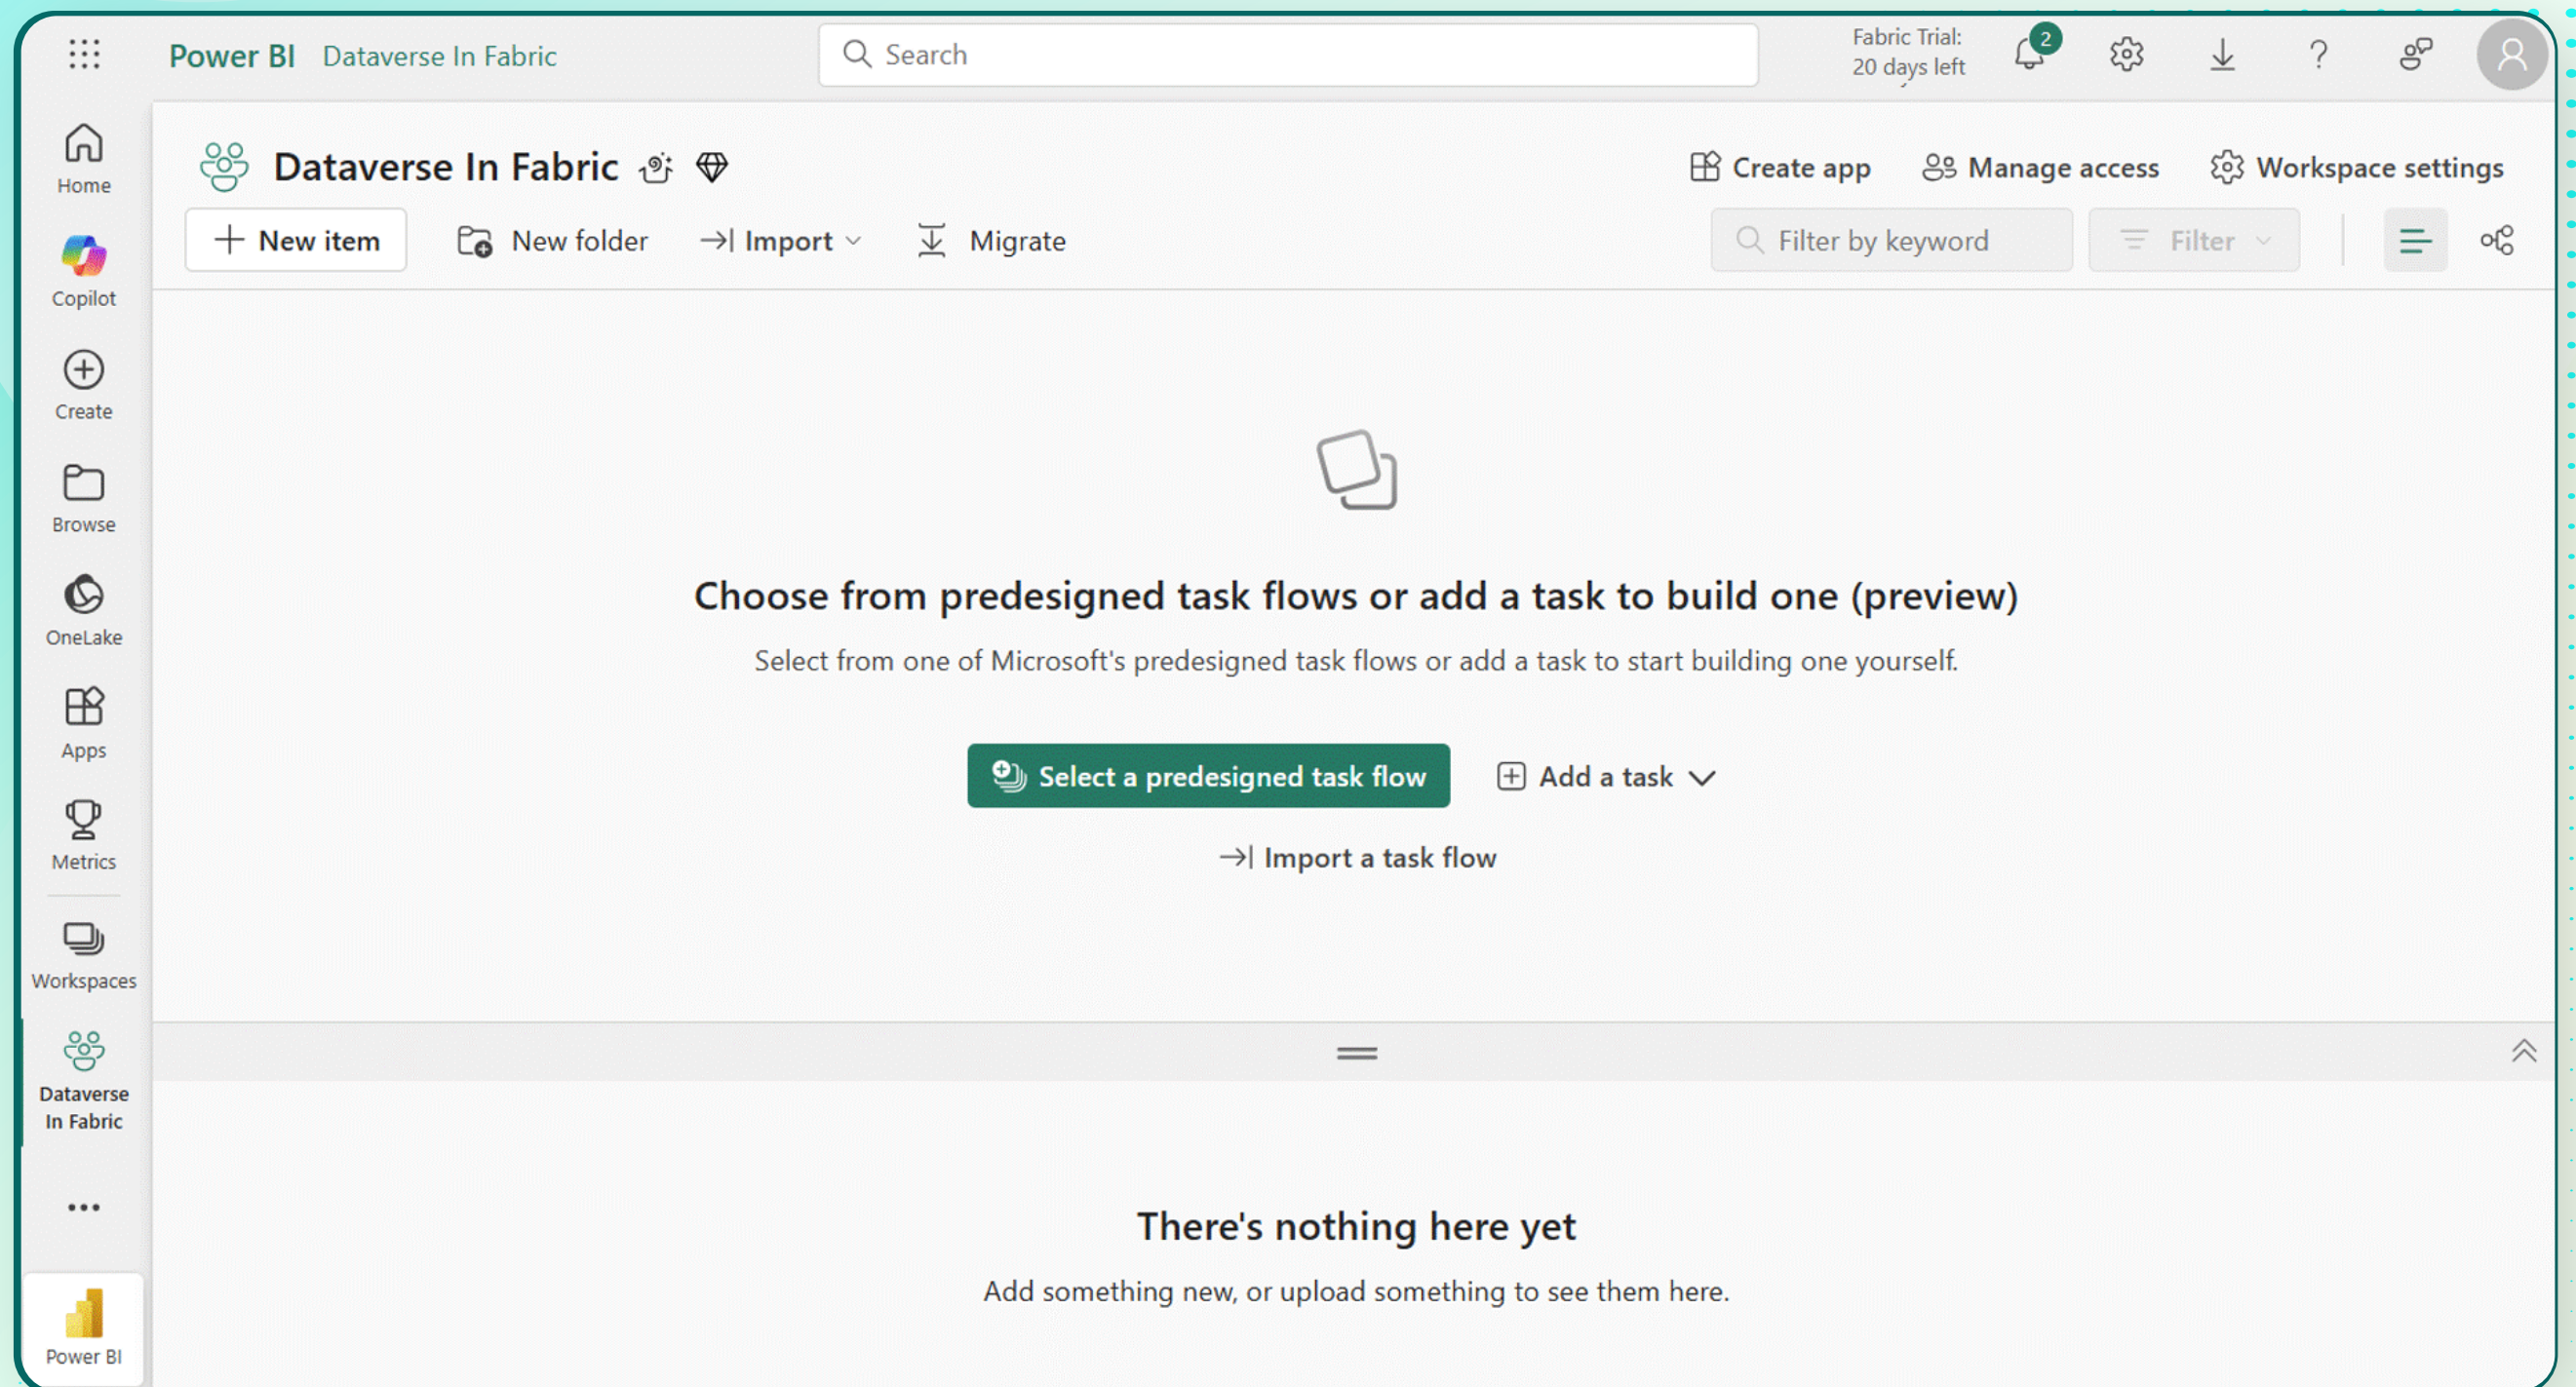

Build responsive Power Apps + workflows in real time

No need for third-party tools or massive infra

Start with a fully functional trial and scale as needed

# Link to Fabric & Mirrored Dataverse Enhancements

**Link to Fabric:** Real-time connection, no data movement

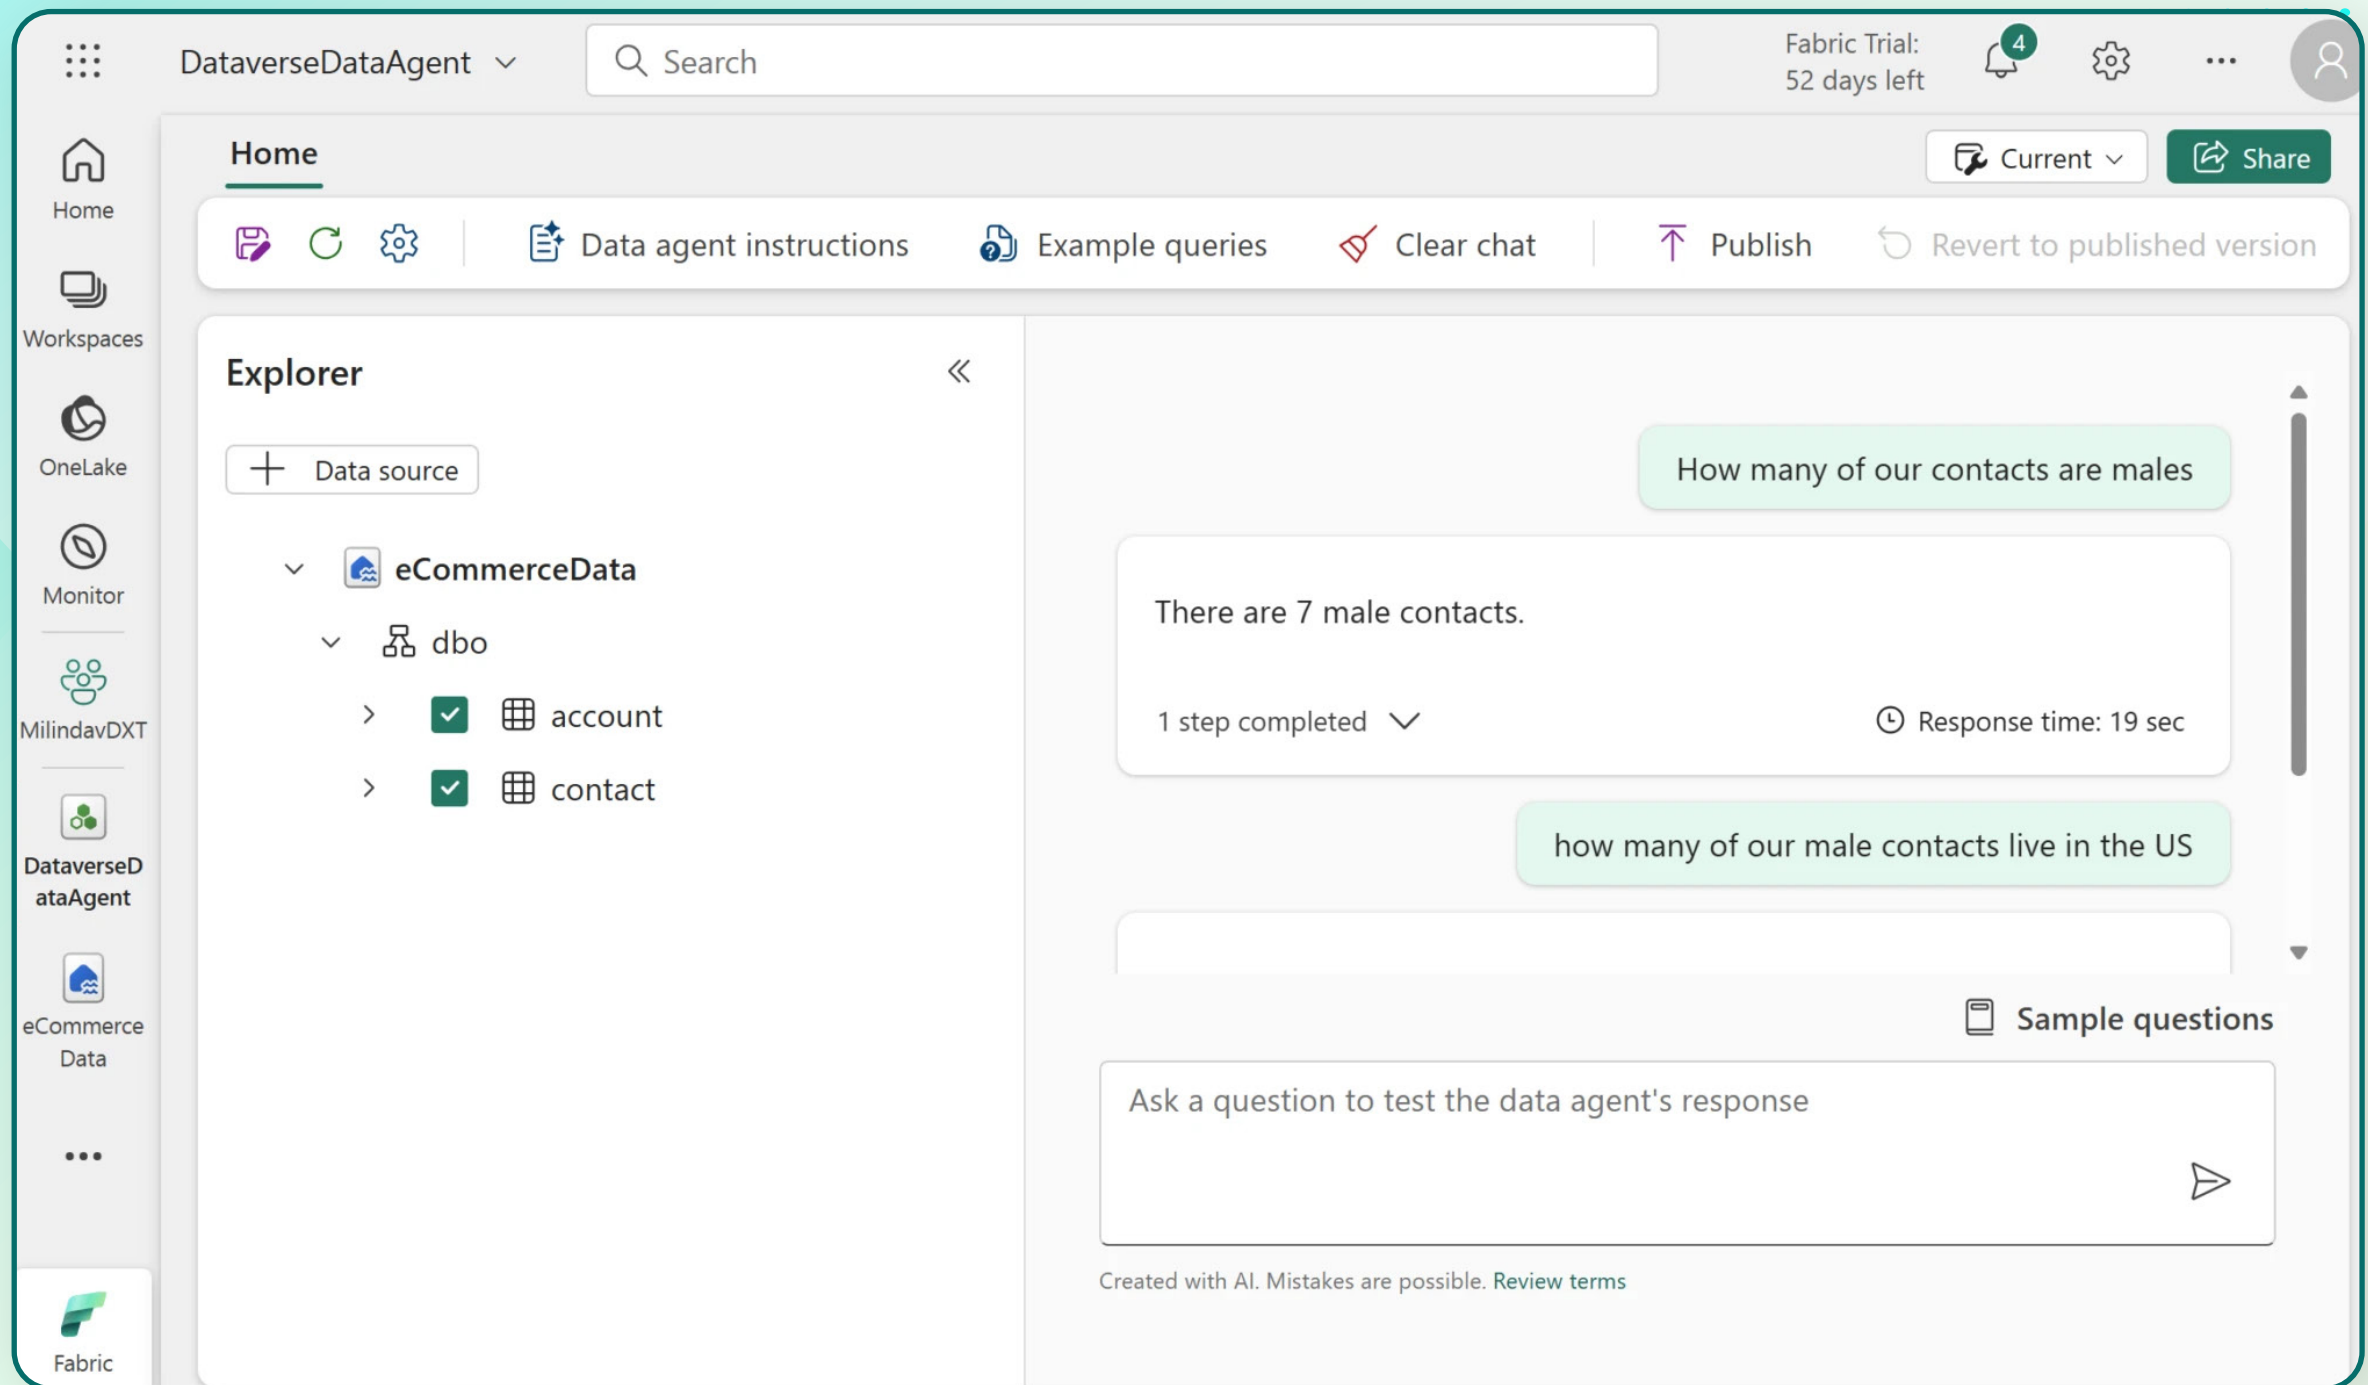

**Faster data refreshes**—updates in Fabric in just minutes

## **Mirrored Dataverse (Private Preview)**

- Activate from any Fabric workspace
- Securely unify Dataverse + analytical data in OneLake

# Fabric Data Agents

## Real-Time Action with AI

- ✔ Fabric Data Agents act as intelligent data analysts
- ✔ Ready-to-use—no training or complex setup needed
- ✔ Tap into live Dataverse data via Link to Fabric
- ✔ **Boost performance & cut costs:**
  - Reports **10x** faster
  - **50%** lower data warehouse costs
  - Data processing time reduced from 40 min to **2-3 min**
