

Advance Your Pediatric Emergency Skills with AHA PALS Certification at PDRE

The **American Heart Association (AHA)** has created the **PALS for Healthcare Providers** program to empower medical professionals with the latest pediatric emergency care techniques. This hands-on training focuses on real-life scenarios that help doctors, nurses, and emergency staff make confident and accurate decisions when dealing with critically ill or injured infants and children.

Offered by **Palm Desert Resuscitation Education LLC (PDRE)** and accessible through **YourCPRMD.com**, the **AHA PALS** course integrates the most recent science from the AHA Guidelines Update for CPR and Emergency Cardiovascular Care (ECC). It uses advanced simulations and expert instruction to ensure each participant develops essential life-saving skills.

What Is PALS?

PALS, or **Pediatric Advanced Life Support**, is a specialized program that trains healthcare professionals to identify and manage life-threatening pediatric conditions. Through a structured learning experience, **PALS** focuses on the recognition and treatment of respiratory failure, cardiac arrest, and shock in young patients.

The **AHA PALS** course is not just about technical skills—it also emphasizes teamwork, communication, and leadership. These elements are critical when multiple healthcare providers collaborate during high-stress pediatric emergencies.

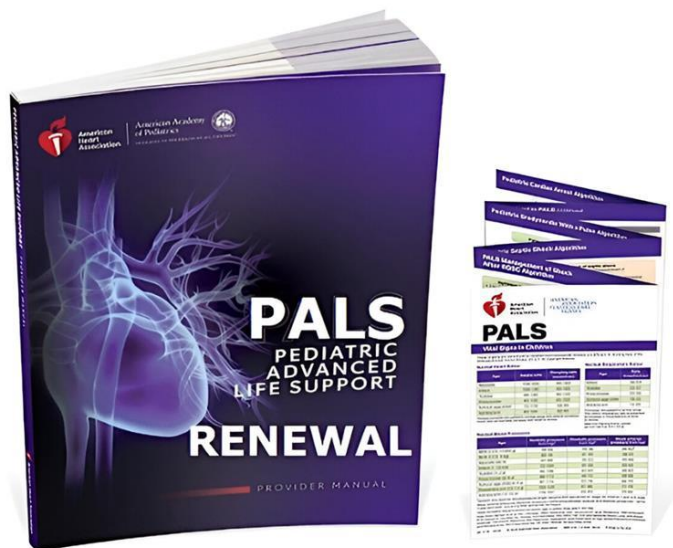

Why Get a PALS Certification?

Earning a [PALS certification](#) demonstrates your dedication to providing the highest level of pediatric emergency care. The training ensures that you are equipped to handle any emergency situation with confidence and precision.

With **AHA PALS**, participants gain knowledge through:

- Video-guided lessons and instructor-led practice
- Step-by-step pediatric assessment and algorithm-based interventions
- Hands-on CPR and AED training for infants and children
- Simulation of real pediatric emergencies to enhance critical thinking

This certification not only fulfills job requirements but also enhances your credibility as a medical professional.

Who Needs PALS Training?

The **PALS for Healthcare Providers** course is ideal for:

- Physicians and pediatricians
- Emergency room and ICU nurses
- Paramedics and emergency medical technicians (EMTs)
- Respiratory therapists and nurse practitioners

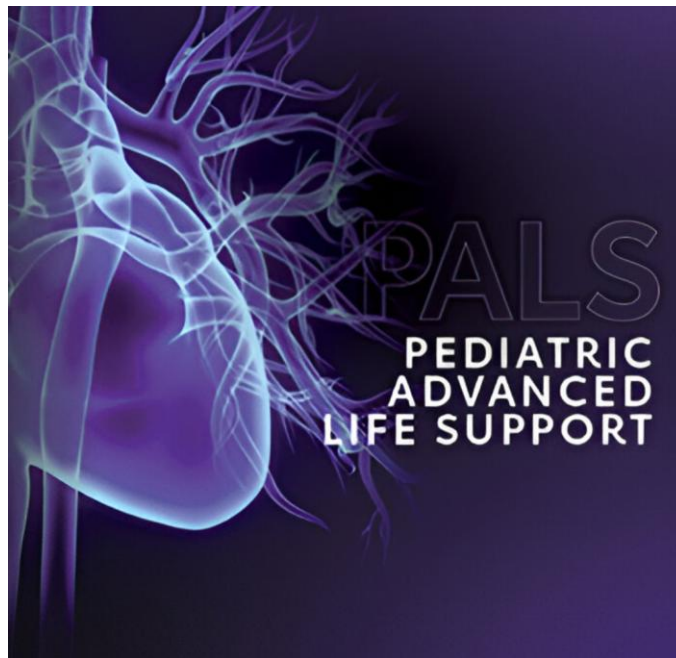

If you are searching for a reliable [PALS near me](#), **YourCPRMD.com** offers classroom-based and instructor-led sessions conducted by certified **AHA** instructors at **Palm Desert Resuscitation Education LLC (PDRE)**.

What Makes AHA PALS Different?

The **American Heart Association PALS** course stands out for its blend of theoretical knowledge and practical experience. It provides a **100% classroom training** environment, allowing learners to interact directly with instructors and peers.

Key features include:

- **Comprehensive Pediatric Learning:** A complete review of pediatric resuscitation and assessment.
- **Active Participation:** Students engage in realistic case simulations and group problem-solving exercises.
- **Accurate Assessment Techniques:** Learn to recognize signs of respiratory distress, shock, and cardiac emergencies early.
- **Evidence-Based Learning:** Updated with the latest **AHA** guidelines for CPR and ECC.

Course Content Overview:

The [AHA PALS](#) course is structured to enhance practical understanding through scenario-based learning. Major topics covered include:

- Systematic pediatric patient assessment
- High-quality **Child and Infant CPR**

To enroll in the **PALS for Healthcare Providers** course, participants must:

- Hold a valid **AHA BLS Provider Card**
- Have basic ECG rhythm and pharmacology knowledge
- Possess or purchase the **PALS Provider Manual**

Those who wish to refresh their ECG skills can take PDRE's **BART (Basic Arrhythmia Recognition and Treatment)** course before beginning PALS.

Materials and Certification:

Every participant uses the **PALS Provider Manual**, a full-color reference guide containing everything required for successful course completion. The manual also includes access to an online portal with a precourse self-assessment test.

Upon successful completion, participants receive an official **AHA PALS** Provider Card, valid for two years. To earn certification, you must:

- Pass the written exam with a minimum score of 84%
- Demonstrate proficiency in CPR and AED skills
- Successfully lead two simulated case scenarios

This certification is globally recognized and meets hospital, clinic, and emergency service requirements.

Continuing Education and Accreditation:

The [American Heart Association PALS](#) course at PDRE is CAPCE-accredited and qualifies for continuing education credits for multiple healthcare professions. Depending on your role, you can earn up to 9.75 CEHs or 2.5 AMA PRA Category 1 Credits™.

Professions eligible for CE hours include physicians, physician assistants, nurses, pharmacists, and EMTs. CAPCE credit must be claimed within six months of completing the course.

Course Fees and Registration Details:

PDRE offers transparent and affordable pricing for all participants:

- Initial (first-time) Providers with Manual – \$330
- Initial (first-time) Providers without Manual – \$280
- Renewing Providers with Manual – \$250
- Renewing Providers without Manual – \$200

Group discounts and early registration offers are available. As class sizes are limited, it's recommended to register early through **YourCPRMD.com**.

Why Choose PDRE for Your PALS Certification?

Palm Desert Resuscitation Education LLC (PDRE) is a trusted training center recognized for excellence in emergency medical education. Their **AHA PALS** instructors bring years of hands-on clinical experience to ensure learners grasp every concept effectively.

PDRE emphasizes real-world learning through simulation, encouraging active engagement rather than passive observation. With modern equipment, supportive instructors, and up-to-date materials, PDRE ensures every participant leaves with confidence and competence.

Related AHA Courses Offered by PDRE:

If you want to expand your medical emergency skills further, PDRE also provides:

- **Basic Life Support (BLS) Provider**
- **Basic Arrhythmia Recognition and Treatment (BART)**
- **Pediatric Emergency Assessment, Recognition, and Stabilization (PEARS)**

Each of these complements your **PALS certification** and prepares you to handle diverse emergency situations with ease.

Enroll Today and Make a Difference:

Whether you're a nurse, doctor, or emergency responder, obtaining your **PALS certification** is a crucial step toward providing advanced pediatric care. The **AHA PALS** course at

YourCPRMD.com by **Palm Desert Resuscitation Education LLC (PDRE)** gives you the training, tools, and confidence to save young lives.

If you're searching for a trusted **PALS near me**, choose PDRE — where excellence in emergency training meets compassionate care.
