

## **Superlift: Cleanroom Gowning Racks with 316 Stainless Steel Construction for Unmatched Durability and Hygiene**

Strict cleanliness standards are required in controlled settings, e.g. pharmaceutical laboratories, semiconductor factories and high-tech medical institutions. Each piece of detail can affect the prevention of contamination and efficiency of workflow, including work surfaces and storage. This is the reason why Superlift provides high-quality Cleanroom gowning racks with 316 stainless steel construction to suit these sensitive environments.

### **Why 316 Stainless Steel for Cleanroom Gowning Racks?**

Now the 316 stainless steel has received a good reputation as it is unbelievably resistant to corrosion, chemicals, & moisture, which are important considerations in a clean room. The clean nonporous surface of the racks enables them to be easily sanitized and maintained to ensure garments and the environment are not exposed to unwanted particulates or bacterial growth. The cleanroom gowning racks produced by Superlift are designed with this high quality material to guarantee dependable performance and uninterrupted cleanliness regardless of the usage.

### **Superlift's Commitment to Innovation in Ergonomics & Material Handling**

Superlift Material Handling is renowned because it has been supplying ergonomic equipments that are safe and efficient in operation. We have products such as lift tables, lift carts, upenders, stackers, pallet trucks, electric carts, skid lifters, work positioners, and custom material handling solutions. Our equipment is designed to survive the harsh industrial and laboratory conditions with capacities of 500 lbs. to 100,000 lbs.

The same care towards durability and flexibility is reflected in our cleanroom gowning racks which are made of 316 stainless steel. These are easily fitted in the current cleanroom designs and are user-friendly and safe. Every unit is simple to clean, corrosion free, and structurally sound to be useable in the long term.

### **Custom Solutions and Unmatched Support**

Superlift is aware that each facility needs individual requirements. You demand certain sizing, customizable parts, or even specialized options on your Cleanroom gowning racks with 316 stainless steel construction, our application experts can work directly with your team, starting with the first consultation, all the way up to final renderings and installation.
