

Adjustable Height Stainless Steel Lift Table Cleanroom: Superlift's Cleanroom Game-Changer

Superlift Material Handling is a market leader in the ergonomic equipment, offering unmatched varieties of lift tables, lift carts, upenders, electric carts, stackers, pallet trucks, skid lifters, work positioners and complete customized solutions. Their products come in models that are small skid lifts, all the way to huge heavy-duty tables that support 500 lbs to 100,000 lbs depending on their design and intended use. Constructed to endure the harshest industrial environments, each one is backed by the legendary warranty and the highest-quality customer service of Superlift.

Precision Engineering for Cleanroom Excellence

The Adjustable Height Stainless Steel Lift Table Cleanroom of Superlift is the gold standard in sterile settings that require zero contamination such as in pharmaceutical manufacturing, semiconductor fabs, biotech labs, and the assembly of medical devices. On sale Adjustable Height Stainless Steel Lift Table Cleanroom Adjustable Height Tables, which can be purchased at Superlift, have high-quality frames made of 304 or 316 stainless steel with electropolished finishes that resist microbes and make a stringent wipe-down of the table simple.

Depending on the smooth hydraulic or electric scissor lifts, it has an adjustable height mechanism that elevates platforms to the ergonomic waist height, eliminating stooping and causing repetitive strain injuries up to 80 percent. Hands-free precision is achieved by use of intuitive foot pedals or joystick controls which

operators use when the parts are delicate and the hands are gloved. Load capacities range between 1,000 lbs (lab bench) and 10,000 lbs (heavy pallet positioning), and such safety measures as automatic velocity fuses, pressure relief valves, and anti-trap guards.

Superlift does add cleanroom-specific features to these tables, including smooth surfaces with no crevices, conductive flooring to avoid ESD, and IP65-rated enclosures to protect electronics used in wet or washdown areas. Tilt angles of up to 90 degrees facilitate load handling when handling of awkward loads are needed and rotating tops facilitate access at 360-degree, without necessarily resetting the top.

Tailored Ergonomic Solutions Backed by Experts

The application specialists of Superlift shine on the extremely specific issue of your facility, like how to optimize assembly lines, or enable sterile packaging, or ease quality inspections. They suggest such configurations as extended decks to fit into oversized trays, built-in scales to weigh the item accurately, or mobile bases with casters that are lockable so that the cleanroom could be moved around.

The product range includes the perfect match to cleanroom tables stainless electric carts to carry contaminants free, upenders to safely rotate bins, and work positioners that can hold the best heights during extended shifts. Every piece of equipment is subjected to severe sterilization protocols, temperature changes and other chemical exposures, supported by the industry-leading warranty offered by Superlift.

Seamless Online Procurement and Unrivalled Support

It is very simple to buy an [Adjustable Height Stainless Steel Lift Table Cleanroom](#) using the easy to use Superlift web site; just see specifications, decide on options with 3D graphics and receive quotes immediately. Upgrades are made easy by way of fast shipping, installation and financing.

Superlift Material Handling is proactive in nature: whenever there is a problem related to ergonomics, their professionals develop solutions that deliver preventive injury, productivity, and cost-reduction. These tables are designed to overcome the most arduous uses and provide a payback by their durability and economy.

Contact Superlift--the initial move toward ergonomic mastery. Lift cleanroom processes with long-lasting compliant lifting energy.
