About us

We created daktar online to reduce the distance not just the physical distance, but the emotional and system-driven gap between doctors and patients. In today's India, access to the right doctor at the right time can still feel uncertain. Patients lose precious hours waiting, traveling, and searching. Doctors lose precious energy managing schedules, answering repeated calls, and handling administrative work that takes them away from care.

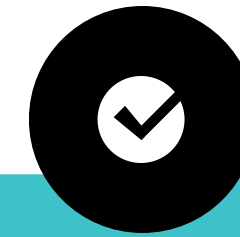

Our Services

[Best Ayurvedic Doctor in Mumbai](#)

[Best Ayurvedic Doctor in Bangalore](#)

[Famous Ayurvedic Doctor in Bangalore](#)

[Doctor Appointment in Delhi](#)

We've seen patients standing in long queues from early morning, holding files and prescriptions, waiting hours just to ask a few important questions. We've seen families travel far from villages and small towns, unsure if the doctor will be available when they arrive.
