

# AVIATION\_AASDC

Aviation and Aerospace Skill Development Council (AASDC) is dedicated to strengthening India's aviation and aerospace workforce by bridging the gap between industry demand and skilled manpower availability.

# ABOUT US

The Aviation and Aerospace Skill Development Council (AASDC) is a leading organization focused on empowering the next generation of aviation professionals through world-class skill development and training initiatives. By collaborating with industry experts, training providers, and aviation leaders, AASDC creates pathways for career growth in airline operations, airport services, and ground handling sectors. The council promotes continuous learning, professional excellence, and workforce mobility through recognized certifications and practical training programs. With an ambitious mission to train thousands of students and volunteers, AASDC aims to address the industry's growing need for qualified professionals while inspiring individuals to achieve their career goals and contribute to the future of India's aviation ecosystem.

# OUR SERVICES

**AIRCRAFT NAVIGATION**

The advertisement features a central image of a white commercial airplane on a runway. To the left, a pilot in a dark blue uniform with gold stripes on the sleeves is looking at a map. To the right, an air traffic controller in a light blue shirt and yellow safety vest is looking at a computer monitor displaying a navigation chart. In the foreground, several electronic navigation instruments are shown, including a GPS display, a VOR/ILS display, and a radio stack. The background is a blue-toned scene with a satellite in orbit, a control tower, and other aircraft in the sky.

The banner features a composite image. The top left shows a pilot's perspective of an aircraft cockpit with various instrument panels and screens. The top right shows a commercial airplane in flight against a sunset sky. The bottom foreground is a desk with a flight planning chart on a clipboard, a pen, a pair of sunglasses, a calculator, and a tablet displaying a weather radar map.
