

Black Jack LLC

In 2011, the concept of transforming carbon into laboratory-created gemstones inspired the foundation of what would later become Black Jack Memory. This vision combined science, craftsmanship, and emotional significance into meaningful fine jewelry. We believe jewelry should carry meaning beyond appearance. Our creations focus on personalized keepsakes and laboratory-created gemstone jewelry that represents connection, emotion, and intention while maintaining transparency and responsible craftsmanship.

About us

At Black Jack LLC, we transform emotions into timeless jewelry through innovation and craftsmanship. Founded with a vision to combine science and sentiment, we specialize in lab-created diamonds and meaningful custom pieces that symbolize love, memory, and connection. Our journey began with a passion for creating more than just jewelry—each piece tells a personal story. With in-house design, ethical practices, and global service, we ensure quality and trust in every creation. From engagement rings to memory diamonds, we are dedicated to delivering unique, heartfelt designs that last forever.
