
Coats Pharmacy

PRESENTATION

Coats Pharmacy

Our Company

Since our founding in 1980, Coats Pharmacy has been a cornerstone of the North Carolina community. As a family-owned and operated independent pharmacy, we believe that healthcare is a personal journey, not just a transaction. For over four decades, we have dedicated ourselves to building lasting relationships based on clinical excellence and unwavering trust. Our independence allows us to focus entirely on you, providing everything from medication synchronization to vital immunizations with the care and attention only a local neighbor can provide.

Our Mission

At Coats Pharmacy, our mission is to make healthcare easier, safer, and more personal for every resident of North Carolina. We achieve this through quick, friendly service, clear clinical communication, and convenient options like medication synchronization and local home delivery, ensuring your well-being is always handled with the attention it deserves.
