

Send files fast. Keep them private.

Fyle Transfer

Fyle Transfer is an online file sharing website. Drop your files, add a password, pick an expiry date and share the link. No sign-up needed.

100

files at once

500 MB

multi-file ZIP

5 yrs

max link expiry

Password Protected File Sharing

Contracts, invoices and client files should not travel unlocked. With Password Protected File Sharing, only people who know the password can open your link.

- Add a password before you send
- Set expiry from 1 day up to 5 years
- Files delete on their own when time ends

Password Protected File Transfer

Sending a big client project? Password Protected File Transfer takes four quick steps, on phone or desktop.

- 1 Drop your files or click to upload
- 2 Add a password and pick an expiry
- 3 Copy the link or scan the QR code
- 4 Recipient opens the link and downloads

Send files fast. Keep them private.

Share PDF Files

Want to share PDF files quickly? Upload them and send the link in seconds. Already have a ZIP? Upload it directly, there is no ZIP creation limit.

Designers

HR Teams

Freelancers

Send finished work with a protected link.
