

We really care a lot.

Hayat Super Speciality Hospital

hayathospital.in | [Kahilipara, Guwahati](#)

Hayat Hospital is a 200-bed, NABH-accredited super speciality hospital in Guwahati, Assam, serving patients since 2010. Its website introduces more than 20 specialities, including cardiology, cardiothoracic surgery, neurology, nephrology and critical care, along with emergency and ambulance services. The next three slides cover the heart-care keywords this website targets.

We really care a lot.

Best Cardiology Hospital in Guwahati

Best Cardiology Hospital in Guwahati is a title many hospitals use, so it helps to look at what stands behind it. At Hayat Hospital, cardiology works alongside cardiac anaesthesia, cardiothoracic surgery and critical care in one NABH-accredited hospital. Tests such as 2D echo, treadmill testing and Holter monitoring are available on site, which keeps diagnosis and treatment planning in one place for heart patients and their families.

We really care a lot.

Best Heart Doctor in Guwahati

Best Heart Doctor in Guwahati is not only about a long list of degrees. It is about a doctor who listens, explains your condition in plain words and recommends only the tests you need. Cardiologists at Hayat Hospital take a careful history, suggest investigations such as an echo or treadmill test, and walk you through the plan. Chest pain, breathlessness or palpitations should never be ignored, so do not wait for them to get worse before you book a visit.

We really care a lot.

Best Heart Surgeon in Guwahati

Best Heart Surgeon in Guwahati is a decision that rests on trust, and heart surgery depends on a whole team rather than one person. Hayat Hospital brings cardiothoracic and vascular surgery together with cardiac anaesthesia, ICU and critical care for the days before and after an operation. Surgeons review your reports, explain the options and risks openly, and plan recovery with you and your family. If surgery has been advised elsewhere, you are welcome to come in with your reports and talk it through.
