

Your records, handled with care.

Welcome to World Document Services

World Document Services is a Raipur-based team that guides students and working professionals through academic paperwork, from university transcripts to medium of instruction certificates.

If an overseas university, employer or visa office has asked for proof of your studies, the team explains which document is needed and how to apply, so you spend less time chasing offices and more time on your plans.

Anna University Transcript

An Anna University transcript is the formal record of the subjects you studied and the marks or grades you earned. Foreign universities, credential evaluators and some employers ask for it before they accept an application.

Graduates of Anna University and its affiliated colleges often need the document sent in a sealed form to a specific address. Knowing the format the receiving body expects before you apply saves weeks of back and forth.

- **Needed for higher studies abroad**
- **Useful for evaluation and visa files**
- **Check the receiver's format first**

Medium of Instruction Certificate

A medium of instruction certificate states the language in which your course was taught. Many universities overseas accept it as proof of English-language study, and sometimes it can stand in for a separate language test.

Because every institution sets its own rule, read the admission page of your target university carefully. Getting this certificate early keeps your application from stalling at the last step.

- **Confirms the language of your course**
- **Often requested for admissions abroad**
- **Apply early to avoid delays**

Transcript Certificate Online

Requesting a transcript no longer means standing in a queue at a university office. Many institutions now take applications online, and a clear guide makes the process far less stressful.

Start by collecting your enrolment details and ID, fill in the request with the delivery address, pay the fee and then track the status. Keep digital copies of every receipt in case you need to follow up.

- **Collect your enrolment details first**
- **Submit the request and keep receipts**
- **Track the status until delivery**
