

Food processing machines made in Coimbatore

Gemini Motors & Machinery

Gemini Motors & Machinery is an ISO 9001:2015 certified manufacturer from Coimbatore, Tamil Nadu. We make stainless steel machines for kitchens, tiffin units and small food businesses, from wet grinders for idly and dosa batter to vegetable cutters for daily prep.

- **Wet grinders for rice and dal batter**
- **Tilting grinders for large batches**
- **Vegetable cutters for commercial kitchens**

Rice Wet Grinder Machine

Stone grinding soaked rice and urad dal takes hours. This rice wet grinder machine finishes the same batch in minutes: load the grains, run water from the tap above the hopper and collect smooth batter from the chute. The wheel at the front sets the batter from coarse to fine.

- **Smooth idly and dosa batter**
- **Stainless steel hopper and body**
- **Made for hotels and tiffin shops**

Tilting Wet Grinder

A tilting wet grinder suits anyone who grinds batter in volume. The big steel drum sits on a tilting frame, so when the batter is ready you tip it with the side handle and pour. No scooping and no heavy lifting. The enclosed base keeps the motor and gears protected.

- **Tilt-and-pour drum with handle**
- **Large drum for bulk batches**
- **Fits canteens and batter suppliers**

Commercial Vegetable Cutter Machine

Cutting onions, carrots, cabbage and beans by hand slows down every busy kitchen. A commercial vegetable cutter machine slices large quantities in a fraction of the time, with even pieces that cook at the same pace. Less labour, less wastage and a cleaner prep area.

- **Even slices every time**
- **Faster prep for canteens and restaurants**
- **Easy to clean after each shift**
