Silver Earrings for Women

Silver earrings for women are the easy answer when you want something that goes with everything. The cool white tone suits jeans, sarees and office wear alike. A pear-cut drop dresses up an evening, while small studs stay quietly in the background all day.

- Cool tone that matches any outfit
- Studs for daily wear, drops for evenings
- Wear alone or with a necklace

925 Sterling Silver Earrings

The 925 stamp means a piece is 92.5% pure silver, blended with other metals for strength. That mix is why 925 sterling silver earrings hold their shape better than pure silver. Look for the stamp, and keep pairs dry and stored apart so they stay bright.

- **92.5% silver, marked 925**
- **Wipe dry after every wear**
- **Store in a pouch, away from perfume**

Womens Sterling Silver Earring

Womens sterling silver earrings come in more shapes than most people expect: slim studs, stone-set drops, huggie hoops and long linear dangles. Choose by how you will wear them. Sparkling stones lift a plain outfit, and a simple shape never fights your hair or neckline. A pair also makes an easy gift.

- **Studs, hoops, drops and dangles**
- **Stone-set designs for occasions**
- **A gift that suits most tastes**

THANK YOU!
