## Summer Dresses for Women

When the temperature climbs, the right dress does half the work. Our **summer dresses for women** are cut to move with you, from belted shirt dresses to flowing maxis, so the day can run from office to evening without a change.

Look for light fabrics, relaxed fits and small details such as a waist tie that flatter without squeezing. Wear sneakers for brunch, sandals for dinner.

# Summer Dresses

Of everything you can pack, summer dresses are the easiest. One piece, no matching needed, and you are dressed.

A printed maxi suits beach walks and sunset dinners, while a shorter cut keeps busy city days light. Pick a print you love, add a few bangles and you are done.

## Summer Indian Cotton Dresses

Cotton is the quiet hero of an Indian summer. It breathes, soaks up sweat and softens with every wash, which is why summer indian cotton dresses keep winning on hot days.

Look for tiered skirts, smocked bodices and thin straps in fresh colours. Wash gently and dry in the shade so the colours stay bright.
