

TimbeRich Inc

TimbeRich Inc. is a Brampton, Ontario company that designs and installs custom wardrobe closets and cabinetry, mainly across the GTA. Its website, timberich.ca, describes closet systems made from classic hardwoods and newer composites, with finishes chosen to suit modern or traditional homes. Pricing is called competitive with no hidden charges.

Closets Wardrobe

A closets wardrobe setup should match how you actually dress, not how a catalogue imagines you do. TimbeRich starts from your needs, designs the closet around them and then installs it, including in master bedrooms. Materials run from classic hardwoods to newer composites described as durable and eco-friendly, and the design team helps you pick finishes that suit a modern or traditional room.

Needs first

Wardrobe Closets with Drawers

Wardrobe closets with drawers keep folded clothes, socks and small items out of sight, so the rest of the space is free for what really needs hanging. TimbeRich builds drawers into its wardrobe closets and matches the fixtures to the rest of the design. A drawer stack beside tall wardrobe doors and shelves, even under a sloping ceiling as pictured, gives you quick access and tidy storage.

Walk in Closet Cabinets

Walk in closet cabinets can turn a spare room or a deep alcove into a proper dressing area. TimbeRich offers adjustable shelves and cabinets for clothing, footwear and accessories, and its page notes the same approach suits small walk-in closets. In the closet pictured, drawers, shelves and hanging space share the walls, so nothing is left in a pile on the floor.
